Hiring Manager
Electric Kiwi and Kiwi Mobile
New Zealand

Dear Hiring Manager,

I am thrilled to apply for the Fullstack Developer position at Electric Kiwi and Kiwi Mobile. As an experienced developer with a passion for innovation and a track record of delivering impactful solutions, I am excited about the opportunity to contribute to your mission of disrupting the utility retail market with cutting-edge technology.

In my current role as Senior Lead Data Engineer at Wells Fargo, I've honed my skills in full-stack development, cloud-based solutions, and automation. Highlights of my experience include:

Fullstack Development: Built robust APIs using Python (Flask and SQLAlchemy) and Java, while developing seamless frontend interfaces with React and Angular.

Cloud Expertise: Designed and deployed scalable solutions on Azure and AWS, optimizing performance and cost-efficiency.

Rapid Prototyping: Delivered proof of concepts to address complex business challenges, ensuring quick iterations to meet stakeholder needs.

Automation: Streamlined CI/CD pipelines and implemented internal tools to enhance development processes, reducing deployment times from hours to minutes.

Beyond technical expertise, I am deeply motivated by purpose-led innovation. Electric Kiwi's emphasis on creating solutions that balance seamless user experiences with meaningful community impact aligns perfectly with my values. I have a keen interest in exploring OpenAI API integrations, event-driven architectures, and serverless technologies, which I believe can drive further innovation in your systems.

Collaboration and knowledge-sharing are central to my approach. I have led cross-functional teams across time zones, conducted code reviews, and facilitated knowledge transfer sessions to ensure project continuity and team growth.

Joining Electric Kiwi and Kiwi Mobile represents an exciting opportunity to blend my technical skills with my passion for making a positive impact. Your commitment to empowering employees, fostering growth, and prioritizing community resonates deeply with my personal and professional goals.

I would be delighted to bring my expertise to your team, helping to deliver scalable, innovative solutions that make Electric Kiwi and Kiwi Mobile the most loved companies wherever you play. I look forward to the possibility of contributing to your vision.

Thank you for considering my application. I am available at your convenience for an interview to discuss how I can support your team.

Warm regards,
Jesse McIntosh
